

GET STARTED!

1. Open the Pizza Expo App on your IOS or Android device. First time logging in? Use the email address used to register for your badge and your badge ID (this is printed on your badge) as password.
2. Onsite Lead Scanning is in the app home screen. This opens your device's camera for scanning and displays scan confirmation.
3. Score Leads immediately to capture initial impressions, helping your team follow up effectively.
4. Exporting Leads. Leads can be exported in the web portal, under My Team. Lists can only be exported in the web portal, not mobile app.

**If the person scanned has not logged into the mobile app, their profile details are only available in the Team portal for export. Email and other personal data will not display in My Connections unless they have logged into the app.*

Exhibitors! Make sure someone on your team claims the team in order to export properly. If not done on a desktop, scroll to the bottom of the app home screen and click 'Claim My Team.'

Get more resources, including a tutorial video, Exhibitor User Guide and FAQs. While you're there, download the Official Pizza Expo Mobile App.

Onsite Lead Scanning Assistance is available.

Visit the Exhibitor Service Desk in Exhibit Hall W1 Aisle 100.
